**Subject:** RE: CETA University 21 program and Bob Davies

Hey Jill,

We are just thrilled with Bob Davies and the results of his ongoing program. Bob presented an in-depth four-hour program keynote at our Power Clean 2007 and has followed that up with the monthly CD, coach's corner and conference call coaching that we have called CETA University. Bob will be coming back for another four-hour program for Power Clean 2008 in October.

We are starting to discuss our plans for the next two years. I am off the board in October and currently bring my replacement up to speed. To formulate some ideas, I recently had some discussions with Bob and I will have more information to share after our August board meeting.

Bob is very deserving of the most awesome reference and recommendation a person can write. He has definitely exceeded expectations and delivered more than we ever expected. Anytime you or Bob Davies would like to use me as a reference you are welcome to forward my office number 509.535.1555 or my cell 509.994.5343 to the person desiring more information.

Thanks again -

*Gary Clark*
