Bob Davies Testimonial

My name is Jay Mattern and I am the Chief Operating Officer of Peoplelink Staffing Solutions, a national staffing firm ranked as one of the 100 largest staffing firms in the U.S.. I want to talk to you about Coach Bob Davies.

I have known Bob since 1999 and my company has brought him in to talk to our key leadership members on several different occasions. The most recent was March, 2012, where he provided an in-depth program for our Regional Vice Presidents and Corporate Managers. He also conducted a kick-off session for our annual awards program the next day.

I highly recommend Coach Davies for any company or association who has tried all of the so-called motivational speakers for their programs and is looking for someone who is high-impact and can do more than just entertain people. Coach Davies gets results!

I would particularly recommend him to other staffing firms or organizations that provide support or resources to the staffing industry. He is highly knowledgeable of our industry and knows what the key drivers are that will allow people to make dramatic changes in their performance in a relatively short period of time.

Coach Davies is very busy, so call or email him now – don't wait!
